Recycled Craft Homework Project

April 14, 2017

Dear Parents,

In celebration of Earth Day, I am asking your child to create a "recycled craft". When creating this craft, *MOST* materials should be those you may be getting rid of or throwing away. Please feel free to assist your child in his/her creation, but let your child do the bulk of the work and creative design. This is a great opportunity for some awesome bonding time!

Please see the attachment for pictures of recycled projects. Your child will also need to fill out the Recycle Project sheet to include the name of the craft, the materials used in making the craft, the purpose of the craft, and what it is used for or what it does.

Thank you for your support and for encouraging your child to love our world!

Sincerely,

Due by April 25th
